Sub: Clarification on various media articles relating to a Gas Leak incident at Sachin GIDC area and the company's name is mentioned.

Dear Sir/Madam,

In terms of Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we wish to inform you that Sodium Hydro Sulphide (dilute solution 16%) which is a non- hazardous chemical is generated at the Taloja plant of the Company that was entrusted to Sangam Enviro Private Limited for processing and onward sale to the textile/cement sector.

As per several media reports, around 6 people died and 23 people were hospitalized in Surat (Police Jurisdiction - Sachin GIDC) due to exposure to toxic fumes. We would like to clarify that this was from a different Tanker bearing No. GJ-06-ZZ-6221. This was not the same tanker that left the company's premises in Taloja. The Surat Police is investigating the matter and the Company is rendering all assistance in the matter.

The Company would like to assure all stakeholders that Hikal abides by all the rules and regulations and follows the highest level of HSE standards while conducting business.

The Company further wishes to inform all stakeholders that all our manufacturing sites are currently operating normally and there has not been any stoppage/disruption in operations at any of the manufacturing sites.

Any further development related to this incident will be intimated to all the Stakeholders. This is for your information and records.

Thanking you,

Yours Sincerely,
for **HIKAL LIMITED**

Rajasekhar Reddy
Company Secretary & Compliance Officer
